

Report on 'Preparing MBA students for Competitive Exams'

The market is becoming increasingly competitive. It is always good to keep one's grey cells active and exercise them regularly. A student might complete graduation/ post-graduation and start working, but one never ceases to learn. Students should update the skills and knowledge to sit for competitive exams which help them to have successful careers.

Here, in SKNSSBM, teaching faculty always try to improve the skills of students by teaching how to solve the problems quickly. The quicker students are, the more points they get. Aptitude and ability tests are designed to assess students' logical reasoning or thinking performance. Here, in SKNSSBM, faculty make the students to practice Aptitude tests, mental ability tests etc. to sharp the brains of students.

SKNSSBM encourages the students to prepare for bank PO and clerk exams, Civil services exams etc. It organises guest lectures by inviting the experienced persons and provides guidance for competitive exams. An orientation program by Shilpa Balyan from Vihaan's IAS Academy on 8th September 2016 was very much influential. She gave guidelines to students about appearing for different exams conducted by UPSC. And also she discussed the challenges involved in appearing those exams.

Report on 'How to solve Aptitude Test' Guest Lecture Session

Day, Date: Thursday, 2nd February 2017

Time: 11:40 a.m. to 1:20 p.m.

Resource Speaker: Prof. Lalit Kanore

Topic: How to solve Aptitude Test

Venue: SKNSSBM Seminar Hall

Brief about the Session:

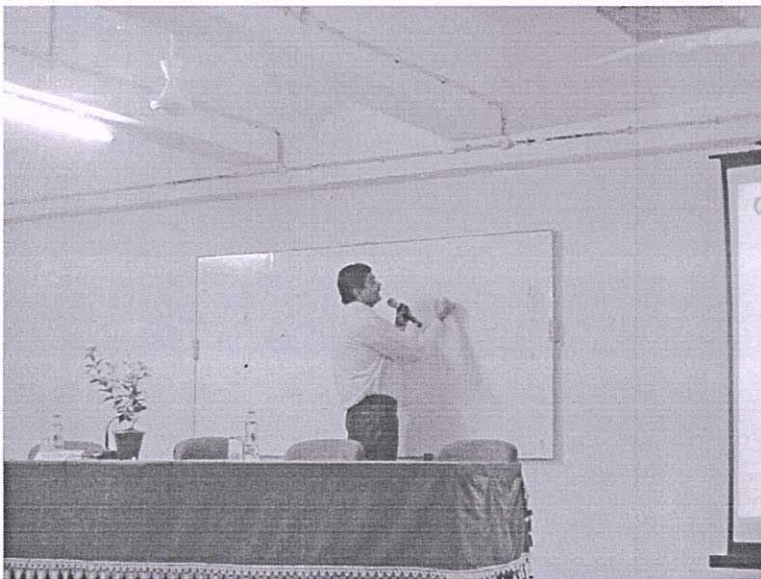

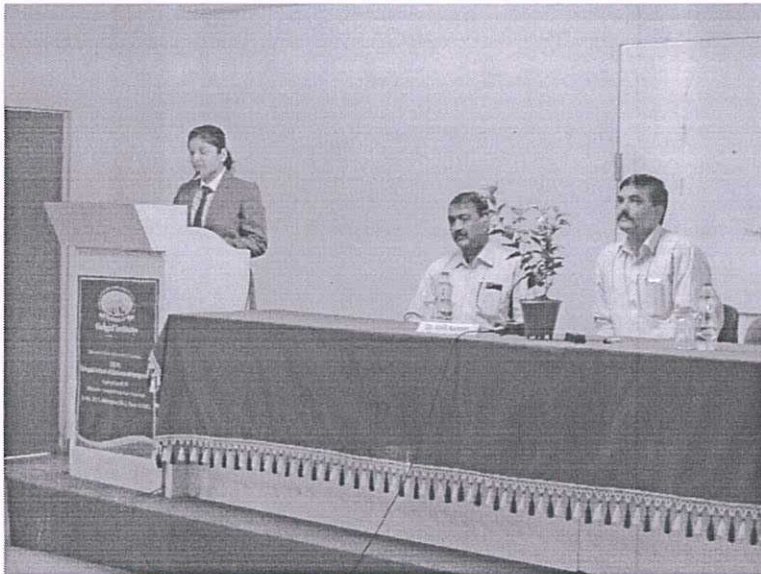

Lalit Kanore Sir, is B.Sc.(Math),M.Sc.(Math),B.Ed.(Math/Science),MMM,Ph.D. Sir has an Excellent experience as a teacher in Ekalavya Polytechnic,Kothrud,Pune ,Pimpri Chinchawad Polytechnic , Akurdi Pune ,Dr. D.Y.Patil Arts Commerce and Science college,Pimpri & Akurdi, Pune ,JSPM's Rajarshi Shahu College of Engineering. Tathawade , JSPM's Jayawant Institute of computer Applications, Tathawade.

From this lecture we have learned 7 days technique. We got to know how to calculate days after and before some years. Sir also told us how to calculate speed, time and distance travelled. Sir told us some tricks to calculate speed, time and

distance. I think this technique is less time consuming and useful in aptitude test for calculating days.

Report Submitted by: Pooja Phadnis & Rucha Kakde, MBA-I Div C
