**MISS NEERU KOUL**  
**MCA, 2008-11 BATCH,**  
**SIMCA**

“My college years have gone by so fast, and I cannot believe they are almost over. My life in SIMCA not only prepared me for my career, it prepared me for life outside of my career. I gained skills that cannot be taught. I learned so much during my time there, and I am not just talking about the course I studied. The best thing to come out of college for me was that I learned a lot about myself, college was really a journey of self discovery for me. All professors of SIMCA are so corporative and their advice has helped me manage my time a lot better”.

“SIMCA has played a transformational role in my life. It shaped me to what I am today. “I completed my bachelors in commerce from rural area of Dhule district and then I took admission to MCA in SIMCA. During the first year of my MCA I realized that I am weak in my communication and worried after MCA how I will cope up with the Industry environment. But the structured programme which takes into consideration the unique needs of the students, the excellent industry academic interface, the teaching and mentoring by the eminent faculties as well as mentors from the industry made me confident in accepting the challenges. Today I successfully completed my MCA and placed in reputed MNC.”

Thank you SIMCA and all the best .....

role to build up my career. I enjoyed education here!

College will change you, they said. It will give you a perspective, they said. By affording me great freedom in course selection, an environment with marvelous faculty and peers, and flexibility enough to study alongside post-grads, SIMCA facilitated all of this. And much, much more; the experience I lived through in my Three years here has not only left me with a more understanding mind open to multiple perspectives, but also the backbone to experiment with options both inside and outside my comfort zone. SIMCA will forever remain close to my heart for merely guiding me to choose the path less traveled and equipping me with the tools I needed to flourish here.

I would also appreciate here the highly dedicated placement cell. Who helps each and every student for their career path selection?
