Student feedback mechanism on Institutional Governance

The institute has mechanism to take the feedback in three following forms
  a.   In the academic year two times the feedback regarding the faculty performance, general administration of department & institute is taken.
  b.   The principal visits every classroom and collects feedback about teaching performance of teachers
  c.   The expert committee of four senior members visits the departments twice in a year. The committee collects feedback from students and according they guide Departments

Faculty performance

  Every faculty member prepares teaching plan for the course they teach. The teacher recommends about the sanction of term of students on the basis of attendance and performance. For group of 20-25 students, one faculty works as campus guardian and same faculty informs the parents regarding performance. The campus guardian does counseling to the students regarding placement, performance, confidence in academic things, personality development etc. The students of each department have formed associations/forums for conduction of guest lectures, arrangements of technical activities

etc. The student chapters like ASHRAE, Concrete Technology and Water Management are   functioning in the institute.

Grievance redressal mechanism for faculty, staff and students

For good governance, the institution has appointed heads for each program, Professor in charge for activities like Alumni, Entrepreneurship Cell, College Magazine, Cultural Activity, Building Maintenance, Time Table etc. There is separate Training and Placement Department.
Weekly meetings of head of Departments are conducted and the opportunity is provided to express the difficulties in running the programs.   All suggestions regarding better functioning of the departments are accepted and positively executed also.
Every faculty, staff and students put their all grievances to Governing Body through Head of Department/ Principal and Local Managing Committee
