Transforming Education through Global Collaboration – The Roadmap, aims at providing a platform to the academicians, researchers, practitioners, and industry professionals to come together and foster the need of a globally acceptable, interdisciplinary, technology driven education system. By identifying educational needs, outline perceived challenges, future impacts that establish conditions which sustain high quality education.

Sustainable Development requires collective leadership, and coordinated efforts – across a range of organizations in the public and private sectors over an extended period of time – that sustains the capacity of educators to lead powerful learning. Globally Collaborated education has the potential to be seamless, ubiquitous and pervasive across place of study, educational level and type of learning. Above facts globally collaborated can articulate a roadmap to achieve strong educational results.

Sinhgad Institute of Management (SIOM™), Pune is a constituent of Sinhgad Technical Education Society (STES) and was established by Prof. M. N. Navale in 1994. This is the first self financed institution imparting PG courses in Management and Computer Application in western India accredited by NAAC in 2018, NBA New Delhi in 2013 and 2008. SIOM-MCA is the first MCA Institute in India to have successfully educated more than 15,000 students over the years and well-placed in some of the most renowned companies across the globe. SIOM’s Innovation Council is registered with Savitribai Phule Pune University and MHRD, IIC India.
