### **Background and Objective of seminar:**

With the rapid development in science and technology, the pharmaceutical industry has been flourishing the market with life saving drugs. An intellectual property right (IPR) of pharmaceuticals is governed by patent law and India being a signatory of the GATT is under governed by regulations. TRIPS, apart from having its own national IPR laws. Moreover, with the introduction of compulsory licensing and ever-greening strategies, patent laws have become more sound and comprehensive.

The objective is to create awareness of IPRs to take measure for the protecting their ideas and business strategies in pharmaceutical sector. Effective utilization of IPR tools by Pharma industries and researchers would also assist them in technology upgradation and enhancing competitiveness. To aids, assists and facilitates owners of intellectual property and fostering of mutual friendship and understanding among those who are practicing in the field of IPR.
