Workshop on Data Analysis

The programme is all about learning various statistical techniques of data analysis and deriving professional expertise in data analysis.

CONTENTS:

- Fundamentals of data analysis.
- Hypothesis formulation, null and alternative hypothesis.
- Introduction to various statistical tests (parametric and non-parametric tests) for testing of hypothesis / data analysis.
- Choosing appropriate test statistics for hypothesis testing / data analysis.
- Using statistical software to run test statistics.
- Interpreting the result.

HIGHLIGHTS OF THE WORKSHOP:

- 100% hands on training program.
- Exercises on sample data tests.
- Enable you to do data analysis on your own.
- Certificates will be issued to each participant.

WHO SHOULD ATTEND?

The workshop contents are specially designed for research scholars / PhD students and teachers those who are teaching research methodology.

REGISTRATION FEE:

₹ 500 per participant. It includes breakfast, tea and lunch.
Cash / DD accepted.

Dr. P. M. Patil

Director
