British Standards Institution & Sinhagad College of Engineering.

JOIN TOGETHER TO MAKE YOU “JOB READY”

QMS gives you the framework to monitor and improve the performance in any area you choose. The world’s most established quality framework the ISO 9001 sets the standard not just for Quality Standards but also for Management Systems in general.

The student will be able to understand the Quality Management System concepts. Understand the standard ISO 9001:2008, the clauses and the interpretation of the clauses and learn to implement a 9001:2008 management system in an organization and its upkeep. Also appreciate the benefits derived from such implementations.

Benefits to students:

- Will learn to Establish, implement, maintain and audit Management
- It changes your approach from “just working” to “working to achieve objectives and targets” to continuously monitoring your achievements against the objectives and targets set. To strive for continuous improvement of your performance

Topics include:

- Introduction to quality
- Planning an audit
- The purpose of the Quality Manual
- The role of the checklists
- Organising an opening meeting
- Performing an audit
- Organising a closing meeting
- Recording non-conformities
- Auditing reports
- Evaluating corrective action
- Continuing assessment

Dates: 26th to 30th July 2010.
Location: Sinhagad College of Engineering, Vadgaon, Budruk, Pune.

To,
All Directors / Principals

Dear All,

The training programme on Quality Management System (QMS) scheduled from 26th July 2010 to 30th July 2010 is initiated by Sinhgad College of Engineering (SCOE) along with British Standards (the UK’s National Standards Body). BSI is the world’s leading provider of standardization, with over 100 years of experience, covering every aspect of the modern business.

A culture of quality and a certificate of excellence for training, information and knowledge on standards, management systems, business improvement and the achievement of regulatory approval for products (ISO-9000 series, ISO 14000 series and many more) BSI trains individual in understanding how a standard can help your business to implement, monitor and audit your compliance to that standard.

British Standards is continually evolving standardization norms to help business face the challenges of the future. As customers become more sophisticated, better informed and their expectations grow, the only way their business can survive and prosper is by offering a commitment to quality.

A Quality Management System (QMS) such as ISO 9001 provides a management framework that gives them the necessary controls to address risks and monitor and measure performance in your business. It can also help businesses to enhance their image and reputation and enable organisations to look for improvements through internal and external communications. In the same line the objectives of the course are:

i. to understand the Quality Management Systems concepts
ii. to understand the standard ISO 9001:2008,
iii. to understand the clauses and the interpretation of the clauses
iv. to implement & Audit 9001:2008 management system in an organization and its upkeep

The key resource person for the programme Mr. Pravin Gothe.

The details and module of the programme are attached alongwith.

The total no of participants is restricted to 30. The Directors and Principals of various institutes of STES family are requested to nominate one faculty members for the course by 15th July 2010.

Regards,

Dr. Mamta Mishra
HOD, Department of Management Studies
SCOE, Pune

Dr. A. S. Padalkar
Principal
SCOE, Pune
