LOCATION MAP

Sinhaavad Technical Education Society’s
Sinhgad College of Pharmacy
441, Vadgaon Budruk, Pune - 411041.
Sinhgad Technical Education Society:
Sinhgad Technical Education Society (STES) was established in the year 1993 by Prof. M. N. Naik with the objective of evolving quality education in the field of Technical, Medical and Allied Sciences, as well as basic school education from kindergarten onwards. Presently there are 87 institutes under the aegis of STES offering full-fledged school education, diploma, graduation & post-graduation courses in various disciplines. STES has 11 educational campuses at Vaiushree, Ambegaon, Pirangut, Khugan, Loniwalla, Mumbai and Salpukar, Parshuram, Sangola, Kondhwa near Shriram. The campuses are coming up. These education centers are ideally located in pollution free, lush green and picturesque environment, conducive for learning. The Institutes under the STES are recognized by the concerned statutory bodies & meticulously fulfill the norms and standards laid down by them. STES maintains a close liaison with the industrial and other leading organizations to serve the interest of the student community as well as the corporate and industrial sectors. The society has established a centralized placement cell in Pune campus and regional placement cell in each of the institutes/collages.

Sinhgad College of Pharmacy:
In the environment of rapidly changing technology, polarized with global competitive intelligence, Sinhgad College of Pharmacy (S.C.P) was established on 4th September 2000 under the aegis of STES, Pune, through the painstaking efforts of Hon. Founder president Prof. M. N. Naik. SCOP has an exclusive building as well as a separate garden wherein a variety of medicinal plants and herbs are grown. The college has highly qualified faculty with rich academic, industrial and research experience and this forms the strong backbone for any professional institute. It is ensured that there are sufficient opportunities for the students and staff members for interaction on a one to one basis. Personal attention is paid to the progress, attendance and performance of each students. Efforts are taken to improve this through value added programmes like seminars and workshops on regular basis. The college also has regular interactions with various Pharmaceutical and technical-professional bodies like IPM, IDMA, IGPA, APTI, OPPI, ISTE etc. We have firmly established M.Pharma in four branches viz. Pharm.Chem, Pharmacognosy, Pharmacology and Quality Assurance. Besides this, the college is also a recognized PhD research centre by UGC. The college gives great emphasis on research activities which is reflected in form of quality research publications and presentations coming out regularly.

About Seminar:
Herbal medicine is still the mainstay of about 75-80% of the world population. India is sitting on a gold mine of well-recorded and well-practiced knowledge of traditional herbal medicine. But, unlike China, India has not been able to capitalize on this herbal wealth by promoting its use in the developed countries despite their renewed interest in herbal medicines. In order to push India as a significant player in the global herbal product market, there is need to focus on agrotechnology, process technology, standardization, quality control, research and development of herbal drugs.

Main objectives of this seminar are to present:
- Need of standardization and safety evaluation of herbal drugs.
- Current scenario of natural products in India and abroad.
- To share the experiences of successful herbal entrepreneurs.
- Safety profile assessment of natural products.
- Conservation and quality improvement of plants.
- Recent advances in Pharmacognosy.
- Also visit to a herbal product manufacturing plant.

Who should attend?
Faculty members from Pharmaceutical Educational Institutes, PG students, Research Scholars and persons working in Pharmaceutical Industries.
